THE L.S. BROWNE CENTRE
DIGITAL DENTAL TRAINING

‘GETTING STARTED WITH GUIDEDSMILE’ MAY 2027 (LIVE SURGERY COURSE)

Start Date: 20th, May 2027
End Date: 21st, May 2027
Cost: £2100

Course Introduction

PREDICTABILITY. EFFICIENCY. ACCURACY. Get ready to enjoy the benefits GuidedSMILE can bring to you and your patients by immersing yourself in this two day, step-by-step course, with live surgery.

GuidedSMILE puts you in full control in your full arch implant cases. It will systematise your full arch workflow from the point of case selection right through to the fitting of your final bridge, creating greater efficiency and better results at each step of the process. So you can complete more full arch cases & make better use of your clinical time.

In order to provide delegates with the optimum learning experience, each course accepts a maximum of 10 delegates.

Find out why 97% of GuidedSMILE find it energises their full arch treatments, and becomes an essential part of their clinical and business practises.

You and your patients will enjoy:

- A methodical, structured planning process.
- A controlled, predictable surgical appointment.
- Dramatically less time in the dental chair for you and your patient at every step of their treatment.
- A smoother journey through treatment.
- Reliably excellent results.

Learn why one of our previous course attendees, and now regular GuidedSMILE user, Chris Barrowman, said, ‘It really is a no-brainer for a dental practice. The GuidedSMILE product is excellent in its’ concept and, once you have seen and felt it in action, you know it has been thought through by some very clever people. They’ve thought of everything.’

‘I would encourage anyone to come and do this course – you won’t regret it’ Dr Santiago Oliver Chamorro

Learning Objectives & Aims

- To introduce the delegates to the fully guided, immediate full arch treatment workflow
- To understand the assessment and data collection requirements for full arch immediate cases
- Become familiar with the surgical and restorative steps required when using the GuidedSMILE stacked guided system
- To gain an appreciation of the management of these complex cases and how to safely introduce such treatment options into your practice
- To learn how to engage and involve your dental team.

Course Schedule

- Day 1: Introduction to the GuidedSMILE treatment workflow, including a full hands-on of each step in the process.
- Day 2: LIVE interactive GuidedSMILE surgery, post-surgery analysis and Q&A.

Speaker List

James Hamill BDS MFDS DIP IMP DENT

James graduated from Dundee in 2001 and in 2003 started his implant career. He is a member of the Faculty of Dental Surgery and has achieved the Diploma in Implant Dentistry from the Royal College of Surgeons, Edinburgh. He is an ITI Fellow with a passion for mentoring and education.
