

DIGITAL IMPLANT PLANNING FOR GUIDED SURGERY (OPEN TO ALL IMPLANT SYSTEMS)

Start Date: 16th, September 2021

End Date: 16th, September 2021

Cost: £375

Course Introduction

This 1 day course, **which is open to users of all implant systems**, is designed to be suitable for those clinicians wishing to learn about digital implant planning. Using Co-Diagnostix the day will be structured around various case studies and will cover a logical and step by step process to be able to predictably design accurate surgical guides to assist in improved patient outcomes.

Learning Objectives & Aims

- To introduce the delegates to digital implant planning
- To learn of the benefits of digital planning and guided surgery
- Gain an understanding of Co-Diagnostix planning software
- By the end of the day all delegates should be able to follow a logical process to digitally plan a straightforward implant case and produce a useable surgical guide
- Learn how surgical guides are manufactured through 3D printing
- To gain increased confidence in establishing a repeatable digital planning pathway for all implant cases
