DIGITAL DENTAL TRAINING

SURGICAL AND RESTORATIVE KEYS TO SUCCESS IN IMPLANT RETAINED DENTURES (USING THE NOVALOC SYSTEM)

Start Date: 17th, September 2021
End Date: 17th, September 2021
Cost: £450

Course Introduction

Surgical and restorative keys to success in implant retained dentures (using Novaloc system)

1 day interactive course including lectures, desktop hands on, and discussion.

Learning Objectives & Aims

- Provide participants with a framework for case assessment in implant retained dentures.
- To understand the keys to successful surgical planning (hard and soft tissue), including CBCT assessment.
- To learn how to place implants specifically for implant retained dentures.
- To understand the necessary prosthetic steps in restoring implant retained dentures.
- To learn about the Novaloc system for retaining dentures on implants, including angulated abutments.
- How to problem solve in implant retained dentures.

Course Schedule

- Case assessment
- CBCT assessment and implant planning
- Step by step implant placement, including anatomical pitfalls and surgical tips
- Features of the Novaloc system

- Step by step prosthetic phase
- Selection of correct abutments – lecture and practical
- Intraoral pick up technique for implant retained dentures – lecture and practical
- How to problem solve in implant retained dentures

Speaker List

Dr Peter Doherty BA, BDentSc, MFDS(RCSI), PG Cert Imp Dent (Newcastle)

Dr. Doherty studied dentistry at Trinity College in Dublin, where he was awarded a scholarship, and graduated in 2003. His first year after graduation was spent as a House Officer at Dublin Dental Hospital before moving to private practice.

Following this, he spent five years in the North East of England where he worked in Oral and Maxillofacial surgery at Newcastle General Hospital and Sunderland Royal Hospital.

During this time, he studied implant dentistry at Newcastle Dental Hospital and graduated in 2011. On his return to Ireland he provided implant services across several practices before becoming a founding partner of 3Dental, a multidisciplinary practice with branches in Dublin and Limerick. He limits his practice to the surgical and restorative aspects of implant dentistry and has particular interests in soft and hard tissue grafting, full arch immediate load, and single tooth immediate implants.
