

## DIGITAL IMPLANT PLANNING WORKSHOP

**Start Date:** 12th, May 2022

**End Date:** 12th, May 2022

**Cost:** £500

### Course Introduction

This 1 day workshop, **which is open to all implant systems**, is designed to be suitable for dental professionals, of all types, wishing to learn about digital implant planning. Using Co-Diagnostix, the day will be structured around various case studies.

It will cover a logical and step-by-step process to be able to predictably design accurate surgical guides to assist in improved patient outcomes.

There is a **maximum of 6 delegates** at this workshop, to enable the greatest benefit for each attendee.

**You will be asked to bring a suitable laptop with mouse to the course, as you will be actively case planning from early in the day**

### Learning Objectives & Aims

- To introduce the delegates to digital implant planning
- To learn the benefits of digital planning and guided surgery
- To gain an understanding of Co-Diagnostix planning software
- By the end of the day all delegates should be able to follow a logical process to digitally plan a straightforward implant case and produce a usable surgical guide
- Learn how surgical guides are manufactured through 3D printing
- To gain increased confidence in establishing a repeatable digital planning pathway for all implant cases

### Course Schedule

After a short introduction to digital implant planning, you will be engaging in the active planning of cases.

Speaker List
